

Tuku the Forest Spirit

Pattern by RCL

Intro

Tuku is a little baby bird that hatched 2023-09-29 on the Mooneye Studios Discord Server as its mascot. <https://discord.gg/s79dPvNX3Z>

As a forest spirit, its natural fur color of green can change depending on the season: orange in fall, white in winter, pink in spring or yellow in summer. So feel free to use other colors.

For Halloween it also likes to dress up in a costume, e.g. as a werewolf, mushroom (eww) or as a black cat (scary).

[Note: US abbr pattern]

Level: intermediate

Measurements

Its main body without appendices has a diameter of about 8.5cm -9.0cm , comfortably fitting into one hand.

With fully spread wings it reaches a width of about 20cm .

I used yarn under / yarn over as a crochet technique.

Abbreviations

FO = fasten off

MR = Magic Ring

bbl = Bobble

ch = Chain

dc = double crochet

dec = decrease

hdc = half double crochet

inc = increase

FAREWELL

And that's it.

Well done, you did it.

I hope you like your little birb. Consider sharing photos of your Tuku friend on Ribblr and/or the Mooneye Studios community Discord server.

Have a great day.
